

Original thinking for original thinkers

The Center for Enterprise Development (The Center) is a business accelerator meant to speed up the development of startups and the expansion of existing businesses by offering the latest technology, a creative work environment, multiple resources, space to meet, and assistance from a professional staff.

The Center is the only such facility created and operated by an economic development organization in Wisconsin!

Do you need a professional place to meet? Is access to technology difficult?
Would a change in atmosphere unleash creativity in your team during the next brainstorming session?
Do you need a quiet place to work? Contact us today to see if The Center is right for you!
